Welcome

Thank you very much for downloading DRJ#2 Refill !

This is an opportunity to celebrate 4000 subscribers of my youtube channel!

Some words about me:

I'm Dany Rock Jr better known as "DRJ" nickname.

I create French tutorials with subtitles for translations, on various music programs, especially on the Propellerhead Reason.

I often thank the loyalty of my subscribers by providing sound packs (Refills) for free.

#### Installation

To install DRJ#2 Refill, simply copy the Refill (DRJ#2 ReFill.rfl) file to your Reason Refill folder. Note that you will require Reason 5.0 or more for these patches to work properly. Reason 4 will not work.

There is 20 Complex Combinator patches included.

These Combinators have been created with great attention and I spent at least 1-2 hours for each of them.

You will find in epic sounds, sweet, sparkling aggressiveness and special effects ...

I hope you have as much fun to use that I took to create them.

Enjoy
